Authorization To Provide Freight Services: By completing the Freight Handling Order Form, it is understood that Valley Expo & Displays and its subcontractors do not automatically insure materials, that insurance, if any, shall be arranged by the Exhibitor and the amounts payable to Valley Expo & Displays for drayage services are based on the value of the material handling services and the scope of Valley Expo & Displays liability as herein set forth. The amounts payable to Valley Expo & Displays are unrelated to the value of the Exhibitor's property being handled by Valley Expo & Displays or its subcontractor. It is impractical and extremely difficult to fix the value of each shipment handled by Valley Expo & Displays or its subcontractors. It is agreed therefore that if Valley Expo & Displays or its subcontractors should be found liable for loss or damage to Exhibitor's materials, the liability shall be limited to the specific article that was physically lost or damaged. Such liability shall be limited to a sum equal to 30 cents per pound per article, with a maximum liability of \$500 per item, or \$1,000 per shipment, whichever amount shall be less, as agreed upon damages bit as a penalty, and such agreed upon damages shall be the Exhibitors exclusive remedy. Exhibits left on exhibit floor without return instructions will be returned to our warehouse and held for disposition at an additional charge. Valley Expo & Displays will not be responsible for condition, count or content until such time as exhibits or materials are picked up for removal after the close of the exhibition.

Make certain all your material is properly insured against fire, theft and all hazards while in transit to and from your booth and for the duration of the exhibition.

The Freight Handling Order Form must be completed and returned with payment to Valley Expo & Displays before exhibit freight will be handled!

AWSA SLATE Conference 2014

Kalahari Resort, December 9, 2014

As the official service contractor, Valley Expo & Displays is the exclusive provider of freight services. Material handling includes unloading your exhibit material, storing up to 30 days in advance at the warehouse address, delivering to the booth, the handling of empty containers to and from storage, and removing of material from cost to transport your exhibit material to and from the convention or event. You have two options for shipping your advance freight—either to the warehouse or directly to show site (if applicable).

Shipping to the Advanced Warehouse

- We may accept freight up to 30 days prior to show move-in. Please check the Freight Handling page for specific dates.
- To ensure timely arrival of your materials at show site, freight should arrive by the deadline date listed on the Shipping Information page. Your freight will still be received after the deadline date, but additional charges will be incurred.
- The warehouse will receive shipments Monday through Friday, except holidays.
- The warehouse will accept crates, cartons, skids, trunks/cases and carpets. Loose or pad-wrapped material must be sent directly to show site.
- All shipments must have a bill of lading or delivery slip indicating the number of pieces, type of merchandise and weight.
- Certified weight tickets must accompany all shipments.
- Warehouse freight will be delivered to the booth prior to exhibitor setup.
- Please call our Exhibitor Services Department at 877.332.4292 if you want to ship oversized material that requires special equipment to the warehouse.

Shipping to Show Site

- Please refer to the Shipping Information page for the specific dates and times direct freight will be accepted.
- All shipments must have a bill of lading or delivery slip indicating the number of pieces, type of merchandise and weight.
- Certified weight tickets must accompany all shipments.

Prepaid or Collect Shipping Charges

- Collect shipments will be returned to the delivery carrier.
- To ensure that your freight does not arrive collect, mark your bill of lading "prepaid".
- "Prepaid" designates that the transportation charges will be paid by the exhibitor or a third party.

Labeling Your Freight

- The label should contain the exhibiting company name, the booth number and the name of the event.
- The specific shipping address for either the advance warehouse or show site is located on the Shipping Information page.

Estimating Material Handling Charges

- Charges will be based on the weight of your shipment. Each shipment received is considered separately. The shipment weight will be rounded to the next 100 lbs. Each 100 lbs. is considered one "cwt" (one hundred weight). All shipments are subject to reweigh.
- On the Freight Handling order form, select whether the freight will arrive at the warehouse or be sent directly to show site (if applicable).
- Next, select the category that best describes your shipment. There are three categories of freight:
 - Crated: material that is skidded or is in any type of shipping container that can be unloaded at the dock with no additional handling required. Special Handling: material delivered by the carrier in such a manner that it requires additional handling, such as ground loading, stacked or constricted space, unloading, designated piece unloading, loads mixed with pad-wrapped material, loads failing to maintain shipping integrity, carpet or labor to unload. Federal Express, UPS Ground, Airborne Express and DHL are included in this category due to their delivery procedures. Uncrated: material that is shipped loose or pad-wrapped, and/or unskidded machinery without proper lifting bars or hooks.
- Add overtime charges for inbound if material is delivered to the booth during the overtime period. This includes both warehouse and show-site shipment.
- Add overtime charges for outbound if material is loaded onto the outbound carrier during the overtime period.
- Add the late delivery charge listed on the Freight Handling order form if material is loaded onto the outbound carrier during the overtime period.
- Add the late delivery charge listed on the Freight Handling order form if the shipment is accepted at the warehouse or at show site after the deadline date.
- Shipments received without receipts or freight bills, such as UPS and Federal express, will be delivered to the booth without guarantee of piece count or condition.

Empty Containers

- Pick up "Empty Labels" at "Exhibitor Services". Place a label on each container. Labeled containers will be picked up periodically and stored in a non-accessible storage during the show.
- At the close of the show, the empty containers will be returned to the booth in random order. Depending on the size of the show, this process may take several hours.

Protecting Materials

• Consistent with trade show industry practices, there may be a lapse of time between the delivery of your shipment(s) to your booth and your arrival. The same is true for the outbound phase of the show-time between your departure and the actual pickup of your materials. During these times, your materials will be left unattended. We recommend that you arrange for a representative to stay with your materials or that you hire security services to safeguard your materials.

Shipping Materials After the Close of Show

- Each shipment must have a completed Bill of Lading in order to ship materials from the show. All pieces must be labeled individually. Bill of Ladings are available at Exhibitor Services at show site.
- After materials are packed, labeled and ready to be shipped, the completed Bill of Lading must be turned in at Exhibitor Services. Do not leave this in your booth with your shipment.
- Call your designated carrier with pick-up information. Please refer to the General Information page for specific dates and times. In the event your carrier fails to show on final move-out day, your shipment will be rerouted to Valley Expo & Displays' carrier of choice at exhibitor's expense.
- For your convenience, the show-recommended carrier may be on site to handle outbound transportation.

Special handling applied to shipments that are loaded by cubic space and/or packed in such a manner as to require additional labor/handling, such as ground loading, constricted space loaded, designated piece unloading, carpet/pad only shipments or stacked shipments. Also included are shipment integrity, alternate delivery locations, mixed shipments and shipments without individual bills of lading. Shipments loaded in this manner require additional time, labor, or equipment to unload, sort and deliver.

Ground Loading/Unloading

Vehicles that are not dock height, preventing the use of loading docks, such as U-hauls, flat bed trailers, double drop trailers, company vehicles with trailers that are not at dock level, etc.

Constricted Space Loading/Unloading

Trailer loaded "high and tight" shipments that are not easily accessible. Freight is loaded to full capacity of trailer-top to bottom, side to side. One example of this is freight loaded down one side of a trailer that must be by-passed to reach target freight.

Designated Piece Loading/Unloading

Drivers that require the loading crew to bring multiple pieces of the freight to the rear of the trailer to select the next piece, having to remove freight from the trailer then reload to fit the trailer that must be loaded in a sequence to ensure all items fit.

Stacked Shipments

Shipments loaded in such a manner requiring multiple items to be removed to ground level for delivery to booth. Stacked or "cubed out" shipments, loose items placed on top of crates and/or pallets constitute special handling.

Shipment Integrity

Shipment integrity involves shipments on a carrier that are intermingled, or delivered in such a manner that additional labor is needed to sort through and separate the various shipments on a truck for delivery to our customers.

Alternate Delivery Location

Alternate Delivery Location refers to shipments that are delivered by a carrier that requires us to deliver some shipments to different levels in the same building or to other buildings in the same facility.

Mixed Shipments

Mixed shipments are defined as shipments of mixed crated and uncrated goods, where the percentage of uncrated is minimal and does not warrant the full uncrated rate for the shipment, but does require special handling. Valley defines special handling for mixed loads as having less than 50% of the volume as uncrated.

No Documentation

Shipments arrive from a small package carrier (including, among others, Federal Express, UPS Ground, Airborne Express and DHL) without an individual Bill of Lading, requiring additional time, labor and equipment to process.

Carpet Only Shipments

Shipments that consist of carpet and/or carpet padding only require special handling because of additional labor and equipment to unload.

Crated vs. Uncrated Shipments

Crated shipments are those that are packed in any type of shipping container that can be unloaded at the dock with no additional handling required. Such containers include crates, fiber cases, cartons, and properly stacked skids. An uncrated shipment is material that is shipped loose or pad wrapped, and/or unskidded without proper lifting bars and hooks.

Outbound shipments from your booth: Exhibitor routings on outbound shipments will be honored when possible. However, we reserve the right to reroute as necessary. All outbound shipments must be tendered with a Bill of Lading. If you prefer to assign your own carrier to handle outbound shipping, you must have your carrier check-in by the designated time. Copies of any outbound shipping forms should be left at our service desk. In the event the designated carrier fails to pick up by the specified time, such shipments will be rerouted by Valley Expo & Displays. Specified (freight force) time can be obtained at the Valley Expo & Displays Service Desk or by calling customer service.

** In any event, do not simply abandon your freight! Our representative on site must be given the appropriate paperwork and outbound shipping instructions**
